REPORT OF SCHOOL BOARD.

Sickness and other causes have hindered the usefulness of a few of our schools during the past year ; but on the whole we are very well satisfied with the progress made. We are especially gratified to notice a marked improvement in the attendance of the scholars ; notably in the spring term at East Candia. In this school eighteen out of a total of thirty-six scholars were not absent, tardy or dismissed once during the term. We are glad to mention this to the credit of the teacher, the parents and the scholars.

Parents who insist upon their children being in the school room all of the school time have right to expect the best results for them.

We report the whole number of scholars 191. Of these eight have not been absent, tardy or dismissed once during the entire year, forty-three for one term, and thirty others have not exceeding three marks against them for one term. Frank L. McDuffee has had only three marks against him for eight terms, or four years. Others have nearly or quite as good a record. This will seem more creditable when we consider that the fall terms were 14 or 15 weeks long—too long for small scholars.

We think that perhaps better results will be obtained in the future if we have two terms of ten weeks each in the spring and summer, and three or four winter schools in different parts of the district so located as to bring them within reach of the older scholars, in the whole district. A winter term is being held at the village, taught by Miss Fanny L. Gile.

Patriotic exercises were held generally in the schools prior to Decoration day, and on that day several of the schools united and repeated the exercises at the town hall, making a very beautiful, appropriate and interesting observance of the day.

BOOKS.

We have changed the readers during the past year. We find that books for the past five years have cost only two and one-half cents per school week, for each scholar. When we con-

sider that at a cost of only sixty-two cents each, scholars have all the school books they want, at school and at home, for an entire year, the economy of the present system will be apparent. We have been awaiting the recommendation of the Superintendent of Public Instruction (as authorized by law) in regard to the study of physiology, but have not heard from him on the subject.

REPAIRS.

The shed at Patten Hill has been completed and painted, and the South Road school house has been thoroughly repaired inside, and furnished with new adjustable desks and chairs. A new flag and pole which are about to be raised by the neighborhood will leave only one school house in town without a flag. The foundation to the Village school house needs to be relaid and the house repaired and painted during the coming season.

The manner in which the Patten Hill house has been kept is a proof that it is appreciated, and that the expense of furnishing neat and attractive school rooms is not a loss to the town.

MANCHESTER MARBLE AND GRANITE WORKS.

ESTABLISHED A. D. 1843.

PALMER & GARMONS,

Manufacturers, Importers and Retail Dealers in

Monuments, Tablets, Head Stones, Vaults and Cemetery work of all kinds.

Our works are well equipped with all the modern improvements for manufacturing. We employ good workmen and being practical workmen ourselves we have every advantage in producing our work at the lowest possible cost. We give our patrons the benefit, and claim that our prices are lower than any of our competitors when good work and stock are considered.

The best evidence we have is the fact, that our business has steadily increased and in 1895 was the largest in the history of the firm.

Office and Warerooms.
